

WRA 110 - Writing: Science and Technology

Reflection Blog

One of the assignments for the class is to keep a reflection blog in which you analyze your learning in the course throughout the semester.

Each entry:

- Substantive in length (250 words minimum)
- Use correct style and grammar
- Be relevant to the course and your progress/learning in it.
- Blogs will be submitted for grading at the end of the semester and should contain no fewer than 15 entries that meet the above requirements.

NB: I highly suggest that you compose entries in your blog on a weekly basis rather than waiting until the end of the semester. By doing so, you will find that you have more to say AND the ideas you are talking about will be much fresher than at the end of the semester.
